A/C Investigator

### Print-out of Tests And Repair Remedies Builds Customer Confidence & Satisfaction

The A/C INVESTIGATOR's sophisticated software analyzes electrical, pressure & temperature inputs to diagnose your A/C problems in just minutes. The unit's built-in printer produces a list of the diagnoses, the probable repair solutions, other helpful A/C information and can be customized with your business' name and address, the customer's license plate number, date and work order number. This list is the best guide possible for your technicians to repair problems that affect an A/C system's operation and performance. It makes their job easier, faster and more accurate.

### Over 20 Tests Automatically Run to Diagnose Problems

# A/C Investigator®

## Accurate, Reliable Computerized Tests Save Technicians' Time

The A/C Investigator adds a new dimension to the automotive air conditioning service and repair business: profits! After an easy hook-up and data entry, it takes just two minutes for the A/C Investigator to run an accurate, reliable computerized diagnosis of the vehicle's A/C system. Then a print-out recommends time-tested service and repair suggestions to save time and generate more profits for your air conditioning repair business.

## Lightweight Unit Is Easy To Use and Connect

The A/C Investigator is ergonomically designed to make it easy to use and operate. The keypad is not complicated and every key is large and clear. Built-in help menus and tester hook-up instructions on an LED screen guide the tech through the simple testing procedure.

## Every Tool, Hose or Connector Needed To Test An A/C Unit Included in A/C Investigator Kit

Testing a vehicle's air conditioning system has never been easier. The A/C Investigator comes equipped with a kit of various connectors, cables, hoses, clips, fittings and other tools including a special thermometer/hygrometer. Additionally, the test unit pressure transducers are built in for their protection.
