

Headlight Lens Restoration & UV Protection Kits

The **ONLY** Kit with

Protects your restored lens from the sun's damaging UV rays

Use the Polish-Fine™ UV Shield and NEVER restore again!

What does Lens-Clear do?

- Removes yellow haze and old film from headlights
- Eliminates the scratches and pits found on headlights on older vehicles

After sanding with **Lubri-Fine™** and buffing with **Mirror-Fine™**, protect headlights against future yellowing and haze by applying the **new Polish-Fine** with the invisible UV-protection shield!

How can a shop make money with the Lens-Clear (10) Vehicle kit?

- Create a new profit center to provide customers with the benefit of clean headlights
- Per vehicle cost is less than \$5, service charge is often \$59 or higher
- Save your customers the expense of buying new headlights

Benefits to the Vehicle Owner

- The large increase in light passing through the headlight lens allows for much safer night time driving
- Improved appearance and resale value of the vehicle
- Saves \$100s versus replacing headlamps

Who can use these kits?

- Vehicle repair and service shops
- Paint & body shops
- Detailers
- Dealers selling pre-owned vehicles
- Shops servicing & repairing emergency vehicles

SBS130
Lens-Clear Kit for 2 Vehicles

What can these kits restore & protect?

Most acrylic & polycarbonate products including:

- Headlights & tail lights
- Emergency vehicle light bars
- Sunroofs & convertible top windows
- Instrument covers
- Aircraft windows
- Boat windows & portholes

Protects your restored lens from the sun's damaging UV rays

How does it work?

1. The **Lubri-Fine** High Performance Sanding Lubricant is used with our high-grade premium sandpaper to remove the scratches from the headlight lens.
2. The **Mirror-Fine** High Gloss Polishing Compound is used with the high performance microfiber cloth to make the headlight lens look like new.
3. The **Polish-Fine** formula perfects the polishing of the headlights and also seals and protects it from harmful UV rays, which are the major cause of the headlight yellowing.

What do these kits consist of?

- One bottle of **Lubri-Fine** High Performance Sanding Lubricant
- One bottle of **Mirror-Fine** High Gloss Polishing Compound
- One bottle of **Polish-Fine** Super Shine Polish with UV Protectant
- High-grade premium sandpaper
- One high-performance microfiber cloth
- Protective gloves
- Instructions
